## Event Announcement

# MRO Virtual RAM Process Webinar

“New Year, New Processes”

April 28, 2022 | 12:30 p.m. to 3:30 p.m. Central | Webex

Midwest Reliability Organization (MRO) is pleased to announce that it will host a **Risk Assessment and Mitigation (RAM) Process Webinar** to provide registered entities with information on new internal processes within Align, which includes RAM’s new Preliminary Review process of all findings and the new responsibility of RAM staff as a RAM Primary Contact for registered entity use. These changes respond to feedback from the 2019 Stakeholder Survey to focus on better communication with MRO’s registered entities.

In addition to internal process changes, MRO staff will review upcoming proposed changes to the Rules of Procedure and provide a summary of upcoming Reliability Standard activity.

Professionals from registered entities within MRO’s footprint involved in their compliance monitoring and enforcement programs are encouraged to participate - there is no fee for attendance. This event will be recorded for those unable to attend the live stream. Full agenda posted [here](#).

### Webinar Topics

- MRO’s process improvement initiative
- RAM’s new internal process changes within Align
- Proposed Rules of Procedure changes
- ERO Reliability Standard activity

### Registration

To register and view the agenda for this virtual event, [click here](#). Registration closes on **April 28, 2022**
