

## Upcoming 2019 Stakeholder Training Events

Saint Paul, Minnesota

Midwest Reliability Organization (MRO) is pleased to announce that it will host two upcoming training events, along with a CIP workshop.

### Event Analysis Training Webinar

**Wednesday, January 30, 2019**

Time: 9:00 – 11:00 a.m.

Location: WebEx

#### Registration

To register to attend by WebEx, [click here](#). Registration closes on **January 25, 2019**.

This two-hour webinar will be a refresher for registered entity staff that are involved with the preparation and submittal of Event Analysis reports, with a focus on brief reports. The webinar will cover the Event Analysis process document, as well as several Event Analysis reference documents that are available on the NERC website. This webinar will help registered entities submit a quality Event Analysis brief report that includes all the necessary information to efficiently and accurately cause code the event, as well as identify whether lessons learned should be shared with industry.

### NERC Cause Analysis Training

**Tuesday, February 5, 2019**

Time: 8:00 a.m. - 4:30 p.m.

Location: MRO Offices, St. Paul, Minnesota

In this workshop, registered entities will learn how the application of Root Cause Analysis can help promote reliability of the bulk power system. The class teaches the difference between root and apparent cause analysis, introduces some of the tools that can be used to perform a cause analysis, and provides a methodology for performing root cause analysis. Other topics include a discussion on cause coding and trend analysis.
