

In accordance with the [NERC Rules of Procedure](#), Section 5.0 of [Appendix 5C](#), MRO has consulted with NERC to establish an alternative time period objective and work plan for completing the substantive review of BES Exception Request 2020-MRO-NCR11983-Exception00001. The time period for the substantive review has been changed to May 31, 2021. The work plan is to collect additional information necessary for an opinion by the technical review panel.
